The Problem...

Damaged mattresses are common in healthcare facilities, and have been shown to harbor pathogens that contribute to Healthcare Associated Infections. Studies in Canada, the US and UK reveal that 26% to 48% of mattresses in circulation are damaged.*
The Solution is Here...

**Why CleanPatch®?**

CleanPatch® is the first medical surface repair patch for hospital beds and stretchers. It restores damaged mattresses to an intact and hygienic state.

**Clinically Tested**
- Validated by independent Infection Prevention Professionals
- Durable and impervious to fluids under rigorous conditions
- Fully cleanable with hospital disinfectants

**Safe and Simple**
- Early intervention reduces the risk of cross contamination from damaged mattresses
- Made of latex-free, biocompatible materials
- Simple peel and stick application, adheres in seconds

**Cost Effective**
- Extends the life of mattresses and stretchers
- Proactively improves patient safety
- Significant savings from equipment repair versus replacement

**Use CleanPatch® as part of a Mattress Inspection and Repair program**

<tr>
<td>(L) 3.5 x 6 inch (9 x 15 cm) rectangle</td>
<td>10/box</td>
<td>Damage up to 4 inch (10 cm)</td>
</tr>
</tbody>
</table>

**Case Examples**
- Tears
- Covered in tape, repairable
- Warped, fluid ingress
- Damage larger than four inches

**Product Information**

**Getting Started:**
1. Determine who will manage CleanPatch® applications in each clinical area.
2. Inspect mattresses during, or after, every terminal cleaning.
3. Ensure CleanPatch® is readily available at the point of use.
4. Review the CleanPatch® application instructions and Implementation Guide.
5. Keep track of repairs to monitor the durability and the savings.

CleanPatch® is an FDA, Health Canada, and CE registered Class I medical device
