

TASKI® jet™/MC 38 and 50

Professional upright 15 in. (38 cm) and 20 in. (51 cm) vacuum cleaners, the TASKI jet 38 and 50 are engineered with a dual motor system, providing high suction power and efficient cleaning.

Features & Benefits

- Vacuum cleaners are very operator friendly due to the robust and ergonomic handle, which is also height adjustable in two positions
- The compact design and ergonomically designed carrying handle allows easy transportation from room to room and over steps or stairs
- The dual motor system provides an excellent air flow while the high-speed brushes mechanically remove dirt within the fibers of the carpet yielding increased productivity and exceptional cleaning results
- The TASKI jet 38 and 50 can be used in a horizontal position to clean underneath beds and furniture; when used with the appropriate accessories, they can also be used in areas above the floor providing increased versatility of the machine

Applications

- Ideal for use in office buildings, conference rooms and other small spaces
- Provides benefits in school classrooms, retail department stores and other small to moderate areas with carpet

TASKI®

TASKI® jet™/MC 38 and 50

Professional upright 15 in. (38 cm) and 20 in. (51 cm) dual motor vacuum cleaners

Description of Features

- **Convenient tool:** Conveniently attached to the machine, the crevice and dusting nozzle is in direct reach of the operator.
- **Ergonomic handle:** The height-adjustable handle comes with handle protection and a telescopic tube with a one centimeter step adjustment that promotes a non-fatigue operation.
- **Easy maintenance:** The brush can be changed without tools and a warning light indicates when the dust bag is full or the brush setting is incorrect.
- **Robustness:** TASKI jet 38 and 50 vacuum cleaners are manufactured from high-impact resistant ABS for a long lifetime.
