TASKI® ergodisc 1200

Ultra-high-speed single disc machine –
for ultra-high-speed burnishing

Key features

- Ergonomics
- Speed
- Simplicity
- Versatility

The ergodisc 1200 is especially suited for buffing, spray cleaning and burnishing.

Designed for speed

A brilliant shine in half the time. Ease of use (straight-line action) and ultra-high speed ensures shiny, slip-resistant floors in a fraction of the usual time. The front steering wheel results in greater manoeuvrability and straight-line action. A large working width (50cm / 20 in) and a superb ability to remove traffic marks means the TASKI ergodisc 1200 is ideal for larger areas.

Ergonomics

Better working conditions improve productivity through:

- Anatomically-formed grip
- Adjustable handle bar height
- Low vibration level
- Low noise level
- Soft start characteristics

Safety

Creates a safer working environment through:

- Hand protection due to closed handle
- Double safety lock

Simplicity

Ease of use results in improved efficiency through ease of:

- Training and operation
- Attachment of accessories, no tools required
- Storage and transportation, enabled by a foldable handle

TASKI®

TASKI® ergodisc 1200

Technical data			
Working width	50 cm	Voltages available	230V/50 Hz 220V/60 Hz 120V/60 Hz
Speed	1200rpm	Cable length	25 m
Weight	42 kg	Noise level	57 dB(A)
Motor height	43 cm	Protection class	I
Nominal consumption	1300 W	Approvals	CE/CB Test cert / ÖVE/SEV/CSA

The above data is typical of normal production and should not be taken as a specification.

Model	SKU number
TASKI ergodisc 1200	8004670

Accessories	SKU number
Suction unit 120V/230V	8504620 / 8504380
Suction skirt / splash protection	8504690
Suction skirt kit (including bottle holder, 2 screws, 2 rings & 4 weights)	8505460
Double filter paper bags (10-pack)	8505100
Microfilters (5-pack)	8505110
HEPA filter	8505180

An overview of other accessories, brushes, pad drives and pads is available on request.

Additional features

Vacuum unit and suction skirt: The combination of vacuum unit and suction skirt is an ideal solution to prevent dust emission into the air.

During spray cleaning, the skirt also acts as a splash protector.

Direct solution distribution: The cleaning solution is distributed through the centre of the pad, using the whole surface of the pad. An electrical spray unit is fitted as standard.

Full pad contact: The floating pad drive gives a constant working pressure and enables the machine to be used on uneven floors.

Robustness: TASKI ergodisc 1200 machines are part of an innovative range of single disc machines. The use of high-tech materials creates robust, shock absorbing machines with an extended lifetime and low service costs.

All TASKI ergodisc machines come with 2 years warranty.
