

# LinoBASE<sup>®</sup>

## Linoleum Sealer

Permanent sealer to protect new linoleum and restore damaged linoleum, providing uniformity and color rejuvenation.

### Features

- Forms a very tough, non-removable sealer that helps keep linoleum floors looking good for many years
- Brings back the true color even on old, worn and faded linoleum

### Benefits

- Sealer will not powder or crack even when applied on very porous linoleum
- This new and unique polymer system creates a tough seal with superior penetration, adhesion and cohesion properties, giving it a much higher resistance to abrasion and chemicals than conventional sealers
- Protects against water damage and against conventional alkaline floor cleaners

### Applications

- A specially-formulated sealer for linoleum floors
- Not intended for use on vinyl, concrete, stone, cork, wood, or bamboo flooring

## Use Directions

Blockade areas to be sealed. Floors will be very slippery until dry.

1. Remove all old finish using LinoSAFE® Stripper according to label directions. Rinse and allow floor to dry.
2. Damaged linoleum should be made uniform in texture and appearance before LinoBASE® Sealer application. Dry-buff damaged linoleum with a red pad on a 175 rpm machine. Wipe away residual dust with a dust mop or damp mop & allow to dry.
3. Apply 2 uniform coats of LinoBASE® sealer using a clean rayon blend mop. Allow 45-60 minutes drying time between coats depending on temperature and humidity.
4. Top coating of LinoBASE® Sealer is required. For best results topcoat with Premia, Signature, or Amplify floor finish according to label directions. When stripping of top coats is needed, remove with LinoSAFE® Stripper, according to label directions, followed by reapplication of additional top coats.

## Product Specifications

Description	
Certifications	None
Color/Form	Opaque White Liquid
pH	9.4
Scent	Characteristic
Shelf Life	2 years

## Available Items

SKU Code	Description/Package Size	Dilution
5104888	1 x 5 gallon / 18.9 L Envirobox™ <sup>TM</sup> (TrailBlazer™ <sup>TM</sup> ready)	Ready-to-Use

## Safety Reminder

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use, and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDSs are available on-line at [www.sealedair.com](http://www.sealedair.com) or by calling 888 352 2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate. Please refer to the Diversey HazMat Library, only available through Internet Explorer, <http://naextranet.diversey.com/dot/>, for up to date shipping information.
